Product Data

These products were developed for a broader and more routine set of applications, than those of the Premium or Industry Specific ranges. Although they are produced to a lower specification than the premium range they can be used on a wide variety of instruments, particularly in applications where the higher specification Premium range products are not required.

- Extensive range 5 ppm - 10,000ppm (5 - 10,000 mg/L)
- Represents excellent value for money.
- Mixed TOC and TIC standards available as a normal part of the range.
- Presented in special twin neck bottles (all values above 50 ppm, 500ml size) which prevents product contamination, evaporation or interference.
- All values below 50 ppm are packed in specially cleaned and leached amber glass bottles.
